

Melanie Schwab – Personal Assistant of 14 years

I pulled into my parking lot at 9:10pm...I got out of my car and walked around the other side to get my bag when all of a sudden this small silver SUV pulled up a long side of me.... This man got of the car and approached me un-expectantly with another woman..I was alarmed because it was dark out and I felt frightened... I then recognized who he was and then he asked if I was Melani. I said yes....he said "I would like to have a word with you...I am Steve, and I finished his sentence by saying .Rambam....He looked quite surprised at my reaction and he said...I have questions to ask you...You are Barbara Bouchey's personal assistant and confidante and I am with the understanding that you have witnessed files being transferred.... And I said I have no idea of what you are speaking of... and he said are you calling me a liar?...He seemed annoyed as he was saying this...and I said no and I have nothing to say to you...I am not speaking to you....then he said...you seem a little nervous....and I said...No, I am a pissed that you are taking my time at the end of a long day and I walked away....and he said... well you have a lot to say to me and I will find out...I just kept walking and went into my apartment....I then watched from my window until they pulled out of my driveway...I was upset and thought to myself...who did he think he was? Parking in a lot late at night trying to find out information about my boss...my personanal space was invaded.He came across being very authoritative and felt threatening....

I have been aware of unfamiliar cars in my lot...and I have two neighbors that saw him at 7:30pm He hid in a parking log adjacent to my apartment which is in a dark area. He was seen several other times in the lot over the last few weeks.
